

Good Morning!

Thank you for signing up for our online newsletter. We hope you find it rewarding. There are a few URLs (web site addresses) that may interest you.

www.takegreatpictures.com is the web site of the Photographic Information Council. It supplies hints and articles about photographers and imaging. One of the current articles is about Mayor Rudy Giuliani and his photography. The articles change close to monthly.

www.madisonphoto.com and www.photosummit.com are our sister websites. You'll find many helpful links, photo hints, our histories, and tidbits about our staff. Most of us have our photos on the staff pages, and clicking on a person's face should activate his or her e-mail address. Please feel free to contact any of us at any time.

We are in the process of setting up photographic field trips with Nikon, Minolta, and possibly Canon. In the past we have visited Longwood Gardens, the Bronx Zoo, HersheyPark & Zoo America, and the Old Rhinebeck Aerodrome. If you have any suggestions on a potential location, please contact one of us. The primary stipulation is that the trip must be held on a Sunday.

Thanks for your business. See you soon

Jerry
